Laredo, Tex., Nov. 9.—Notwithstanding the efforts of the physicians the yellow fever continues without much abatement. The official bulletin issued Sunday is: New cases, 12; deaths, 0; total cases, 723; total deaths, 66.

Dr. R. D. Murray, the international yellow fever expert, returned from a trip as far as Saltillo, where he has been investigating the yellow fever situation. In an interview he stated that conditions in Monterey, if judged by other cities where yellow fever has been epidemic, indicated no less than 25,000 cases there this year with the mortality placed conservatively at five per cent. The deaths have been greatly in excess of the number reported in the official bulletins issued at that city and fully 500 cases exist at this time.

All the stations on the line of the Mexican National between Laredo and Saltillo have suffered an invasion of the yellow fever and have contributed an unknown number of deaths and cases.

The doctor stated that there was no quarantine south of Monterey which would merit the name. He said the vast commercial interests of Mexico are becoming alive to the situation and begin to dread the inestimable loss which they may suffer from embargoes which will undoubtedly be placed next year in the event of a reappearance of the disease, and seem more willing than heretofore to permit explicit statements of the dismal condition of affairs to be made public. The doctor is of the opinion that it is of paramount importance that this country look after the stamping out of yellow fever in Mexico and thus protect itself from a future invasion. He favors the establishment of station inspectors with license to practice in Mexico and detention camps where suspects may be detained for a period of six days under strict surveillance.

The doctor stated that so far as he was able to learn there had been no isolation of cases at Monterey and nothing had been done for the multitude of cases except those in the advanced stage. For thousands of cases nothing at all had been done and no attention given to exterminating the mosquito.

The fever has also prevailed at Columbia, Mex., opposite the mining town of Minera, and it is stated that thirty deaths had resulted there up to a week ago.

The official bulletin from Monterey reports eight deaths and 21 cases for Thursday and Friday last.

CONGRESS IN SESSION

Promptly at Noon on Monday Each Body Called to Order.

U. S. CANNON IS SPEAKER.

Illinois Congressman Presides Over House of Representatives and Senator Frye Does Likewise in Senate.

Washington, Nov. 9.—The fifty-fifth congress convened in extraordinary session at noon Monday in accordance with the proclamation of President Roosevelt for the purpose of enacting legislation necessary to make effective the Cuban reciprocity treaty. The day was devoted simply to personal greetings and organization.

The house assembled the largest membership in its history, and the scene before the gavel fell in that body was one of animation, both on the floor, in the cloak rooms and in the lobbies and corridors. The day was crisp and bright and the capitol building presented the appearance of a new structure

SENATOR FRYE.

with its coat of white paint and complete renovation within.

Crowds of eager spectators, both men and women, thronged the corridors and rotunda of the capitol early, and the galleries, to which admission was had by card only, were taxed to their capacity long before the hour for assembling arrived. Many high officials of the government left their desks at the departments to witness the opening session and greet friends, and many strangers in Washington had their first glimpse of congress, while the capitol was the Mecca of Washingtonians. The committee rooms, which have been in the hands of the renovator during the recess, was thrown open and many formal receptions were held by popular chairmen. With the speakership question out of the way in the endorsement of Mr. Cannon there was nothing to worry the legislative mind and the day was given up to the sentiment of the occasion.

Many handsome floral tributes to the members were borne in unusual profusion to the lobbies back of both the senate and house chambers to be placed later on the desks of members. New members of the house received initiation to doorkeepers and house employees

and many were turned back for identification because of their slight hesitation in presenting themselves for admission. Such incidents contributed to the general lively animation and good humor of the occasion.

The senate was called to order by President Pro Tem Frye, and the house by Clerk McDowell.

With the galleries crowded the senate was called to order at noon. The senators' desks were a mass of flowers. Senator Hanna's recent victory in Ohio won for him one of the most pretentious floral designs. Senator Gorman's triumph in the Maryland election was recognized by a large floral emblem. After routine business the senate adjourned.

Long before the house of representatives was called to order the galleries were crowded, many ladies being present. Many members' desks were banked with flowers.

The Democrats rallied around their new leader, Mr. Williams of Mississippi, who was chosen to take the place of Mr. Richardson of Tennessee. Mr. Cannon and Mr. Williams were placed in nomination for speaker. Both names received hearty applause. Cannon was

WEDNESDAY, NOV. 10, 1903.

Now congress convenes yesterday.

Adv. of fire report. Mid to have explosion all summer, and upon the United States it out of that.

In a home and day many acres do not mean big crops. It is generally the man with few acres and that gives them proper attention that gathers the harvest.—Gonzales Inquirer.

When you hear a fellow talking about his home paper, abusing its policy, criticising its lack of intelligence, its meager news items, its make-up, its bad print and its appearance generally, you can easily place him. He is either a delinquent subscriber, is not a subscriber at all, or has been refused the right to dictate its policy and is "hot" at the editor.—Hearne Democrat.

But music is a wonderful thing. It has won many a battle, redeemed many a lost soul, and brought joy to many a young swain who begged yes for an answer. So thoroughly established is the potent power of music that in many countries it is a part of the government equipment of peace. Our neighbor republic of Mexico is ruled by the show of military

force and the playing of military music, and I doubt seriously if the arms are as great a preserver of the peace of those hot blooded, passionate people, as is the seductive music of their great bands. Music, that sweet, soft, seductive harmony of sound and rapture of sentiment, that makes a man love like a fool and fight like a devil, is the heart pulse of all the nations, and though a babel of tongues may confuse the understanding, music is a universal language, and understood by all. It needs no interpreter but finds a responsive chord in every heart.—Palestine Press.

The only inconvenience suffered by his majesty is that he has been enjoined not to speak until the wound caused by the operation has been healed. The Greater Texas conference of the M. E. Church South meets in Bryan in three weeks and Rev. E. L. Shettles announces that he still lacks some for some forty of the 300 preachers and delegates expected. The stewards of the church and the entertainment committee held a meeting last night and will take immediate steps to complete arrangements for the conference. In this they should and we believe they will have the hearty co-operation of the people of Bryan of all churches and of no church. Bryan will get a good deal more out of the convocation of these intelligent, consecrated men remaining a week in our midst than they will get out of Bryan no matter how well they are entertained. They represent every community from the Red river to the Gulf and from the Sabine river to the Houston and Texas Central railroad, and the information alone regarding the conditions and prospects of this vast territory disseminated during the conference will make attendance on the meetings worth while. If you are willing to help and haven't done so, now is the time to notify the pastor and his helpers.

The Elks held a meeting at their lodge room Sunday afternoon and made arrangements by the appointment of committees and attention to other details for their memorial exercise Sunday afternoon December 6th. The members will attend the service in white duck uniform and the exercises will be of an interesting and impressive character. Hon. Carl F. Drake of Austin, president of the Elks' state association, will deliver an address on the aims and purposes of the order; United States District Attorney Atwell of Dallas will speak on Charity, and Capt. T. P. Buffington of Anderson will pay an appropriate tribute to the dead.

An advance notice says: The acknowledged best show in the south is Billy Kersands' Big Colored Minstrels made up of genuine comedians, vocalists, dancers and clever specialty artists who will hold forth at the Grand Opera House Tuesday, Nov. 10. With Billy Kersands at the head of the best colored talent on the stage, they will doubtless test the capacity of the house. Marsh Craig, contortionist; Kid Langford, the Alabama Quartette and Cook and Jones, Billy Kersands will have the pleasure of presenting the best colored show ever organized.

Brown his interest in a farm owned by them and located between the Little and big Brazos rivers. The Eagle learns that Mr. Brown does not contemplate leaving Bryan at present.

Mr. F. D. Perkins of this city has been elected a member of the New Orleans cotton exchange and will open a branch office in Bryan by the middle of the week for Fairchild & Hopkins, one of the best known New Orleans cotton firms. The office will be located up-stairs over the store of Jno. M. Lawrence & Co., and will have a direct wire connection with the New Orleans exchange.

W. J. Coulter has returned after a week spent in St. Louis hustling for bargains. He says he bought goods cheaper than ever before and secured a big lot of jobs, ends and remnants which he will give his trade the benefit of, as usual. PROTEST FILED.

Colombia Objects to Course Pursued
by the United States.

Washington, Nov. 9.—It was learned in official circles that the United States of Colombia has lodged a protest with the state department against the action of the United States in connection with the events which have occurred on the isthmus of Panama. The terms of the protest could not be ascertained, but it is known that strong objection is made to the attitude of the United States in general and against interpretations of the treaty of 1846 between the United States of America and the United States of Colombia. The state department has the protest under serious consideration, but the nature of its reply, if any, or the time when it will be made, is not known. Other than admitting that a document had been filed with the state department, the official statement about the matter was brief.

Cadle, in an altercation, had cut Policeman J. S. Cox, who died shortly afterward. About 2 o'clock Sunday morning a mob secured entrance to the calaboose and taking Cadle out shot him four times and hung him to a telephone pole. MARTIAL LAW.

It Has Been Proclaimed in a Turkish Province and Troops Sent.

Constantinople, Nov. 9.—Martial law has been proclaimed in the district of Hassan Kala, province of Exzeroum, Asia Minor, and troops have been quartered in all villages of that district as the consequence of revolutionary movements on the part of Hentchakists or members of the Armenian revolutionary society. Two bands of Hentchakists recently crossed the Russo-Turkish frontier with the intention of inciting the inhabitants to rise against the Turkish government, but they were quickly overtaken by troops. One band was exterminated and the second driven back into Russian territory. The Turkish governor of the district redistributed among the Kurds the weapons which they were recently compelled to give up.

SUBJECT TO ALLOTMENT.

There Are Over Four Million Acres of Land in the Cherokee Nation.

Tahlequah, I. T., Nov. 9.—The reports of the Dawes commission and the attorneys of the Cherokee nation show that there are 4,420,070.13 acres of land subject to allotment in the Cherokee nation. From this must be deducted reservations of one acre for each county school, for cemeteries and small reservations for mission schools and new towns along railroads. This allotable land is valued at \$13,133,000. There is now being allotted to each citizen \$325.00 worth of this land. The rolls show that there will be 40,000 Cherokees on the final rolls. The doctor things he has found a perfect fit in a hospital, but will wait a week before acting.

THROAT BETTER.

Inflammation Is Fast Diminishing and Emperor Is Improving.

Berlin, Nov. 9.—A bulletin concerning the condition of Emperor William, who was operated upon Saturday for the removal of a polypus from his larynx, was issued Monday morning at the new palace of Potsdam. It was as follows: "The inflammation which naturally follows as a reaction from the operation is already diminishing. We can, therefore, be satisfied with the appearance of the left vocal chord. Nevertheless, the healing of the little wound may probably require another week."

The emperor's general condition is good. His temperature and pulse are normal. It is signed by the three surgeons. A court circular states the emperor personally heard the report of Herr Von Lucanus, chief of the cabinet.

READY FOR WAR.

Wealthy Business Man Says Japanese Want to Tackle Russia.

Seattle, Wash., Nov. 9.—Japan is all ready for war with Russia, according to Charles V. Sale, a millionaire business man, who lived in Yokohama for twenty-three years. He says the people generally in Japan expect war and want it, but the government has so far pursued a very conservative policy and succeeded in keeping in check the more radical ones. He says Japan does not care anything about Manchuria except to protect its trade, but Russia must keep its paws off Korea or get war. The newspapers of Japan entered into an agreement to print nothing about the movements of either the navy or army, and all strangers are closely shadowed to prevent Russia getting a line on Japan's preparations.

HANDED PRESIDENT.

Secretary Hay Gives Chief Executive Protest From Colombian Charge.

Washington, Nov. 9.—Secretary Hay during his call at the white house early Monday morning placed in the hands of the president the Colombian protest against the course pursued by the Washington government on the isthmus and its attitude toward the new government of Panama. The protest came to Secretary Hay from Dr. Thomas Herran, Colombian charge, and was duly acknowledged in a brief formal note and to the point. It follows the usual lines of formal communications of this kind. In view of the authorized announcement made by the Colombian charge that he had not been in communication with his government since Nov. 2 it is assumed that he protested on his own responsibility.

CANCER FEARED.

Household of Emperor of German, Are Inclined to Be Uneasy.

New York, Nov. 9.—Information contained in private dispatches received here shows the operation on Emperor William was similar to the first one performed on his father, and consequently causes concern to the household. The official statement issued by the surgeons fails to reassure, because it is well understood that for reasons of state the emperor will be given the benefit of any doubt as to the true character of his disease. It is recalled that the surgeon at that time said little about the first operation of Emperor Frederick. There is anxiety because both Emperor William's mother and father died of cancer, and his grandmother, Augusta, is also afflicted. Emperor's aunt, the Grand Duchess of Baden, as is well known in Germany, is suffering from the same malady. It may take months to decide whether the fears now entertained are unfounded. At present the whole weight of the scientific authority, which is in attendance upon the emperor affirms that he has not cancer.

Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membranes lining the stomach and expose the nerves of the stomach, thus causing the glands to secrete mucus instead of the juices of natural digestion. This is called Catarrh of the Stomach.

Kodol Dyspepsia Cure

relieves all inflammation of the mucous membranes lining the stomach, protects the nerves, and cures bad breath, sour risings, a sense of fullness after eating, indigestion, dyspepsia and all stomach troubles.
